AUGUST 11 TH MEETING —

Three students that participated in Rotary's Youth Leadership Conference held at Messiah College were the program presenters. Each brought their own perspective on the week-long experience. We heard about the various activities and learning opportunities. One student stated that 'every night was a party!' Another noted that 'the food was really really good.....sometimes'. These young adults were mighty entertaining however their message did not go unnoticed. Each said that the experience was once in a lifetime and that they'd like to encourage their peers to attend if at all possible. Thanks to Mitchell Dandigrac, Jessica Gray and Donald Ivy for their interest in youth leadership!

Scott Keller gave the club his classification speech. His insights into business, marriage and parenting would indicate that he is MUCH SMARTER than he professes to be.
